| *Note:       | Partly compatible means that this model has poor focusing performance with this lens.                                                                                                                                        |                         |                     |                   |
| *Note:       | Compatible* means that this camera model, when using this lens in AFC mode for high-speed continuous shooting, will not switch focus or maintain focus, and this issue needs to be addressed by a follow-up firmware update. |                         |                     |                   |
