1080 JOULES OF SURGE PROTECTION

POWER CONDITIONING & NOISE REDUCTION

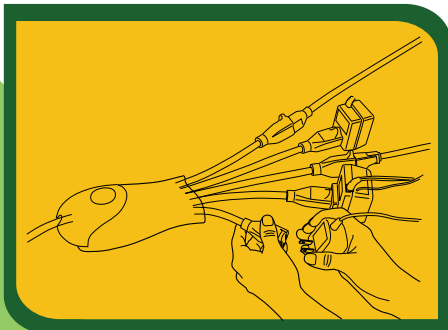

FLEXIBLE ARMS MAKE IT EASY TO USE POWER PLUGS & TRANSFORMERS

POWERSQUID SURGE PROTECTOR

The PowerSquid® Surge Protector and Power Conditioner is a safe and easy way to provide 1080 joules of surge protection to your sensitive electronics. The PowerSquid accommodates up to 5 bulky transformer plugs with ease, providing more flexibility than a standard surge protector.

The PowerSquid Noise Reduction Filter reduces line static caused by "dirty" power. Line noise and electrical static can show up as snow in your picture or as crackling in your audio. The filter isolates your equipment from power generated noise for a clear picture and sound.
