

# Lens Compatibility List

| Lens Model   |                                                                                     | AF 135 F1.8 LAB FE      | Lens Firmware Version | v1.14              |
|--------------|-------------------------------------------------------------------------------------|-------------------------|-----------------------|--------------------|
| Camera Model |                                                                                     | Camera Firmware Version | Photo Mode            | Video Mode         |
| Full-Frame   | a7                                                                                  | v3.20                   | Partly compatible*    | Partly compatible* |
|              | a7R                                                                                 | v3.20                   | Partly compatible*    | Partly compatible* |
|              | a7S                                                                                 | v3.20                   | Partly compatible*    | Partly compatible* |
|              | a7C                                                                                 | V2.00                   | Compatible            | Compatible         |
|              | a7II                                                                                | v4.01                   | Partly compatible*    | Partly compatible* |
|              | a7RII                                                                               | V4.01                   | Partly compatible*    | Partly compatible* |
|              | a7SII                                                                               | v3.01                   | Partly compatible*    | Partly compatible* |
|              | a7SIII                                                                              | v3.02                   | Compatible            | Compatible         |
|              | a7III                                                                               | V4.01                   | Compatible            | Compatible         |
|              | a7RIII                                                                              | v3.10                   | Compatible            | Compatible         |
|              | a7IV                                                                                | v4.00                   | Compatible            | Compatible         |
|              | a7RIV                                                                               | v1.20                   | Compatible            | Compatible         |
|              | a9                                                                                  | v6.00                   | Compatible            | Compatible         |
|              | a9II                                                                                | V5.00                   | Not compatible        | Not compatible     |
|              | A1                                                                                  | v4.00                   | Compatible            | Compatible         |
|              | FX3                                                                                 | V2.02                   | Compatible            | Compatible         |
|              | FX6                                                                                 | v3.20                   | Not compatible        | Not compatible     |
|              | A7RV                                                                                | V2.00                   | Compatible            | Compatible         |
|              | ZVE1                                                                                | V1.03                   | Compatible            | Compatible         |
|              | A7CR                                                                                | V1.02                   | Compatible            | Compatible         |
|              | A7CII                                                                               | V1.02                   | Compatible            | Compatible         |
|              | A93                                                                                 | 2.01                    | Compatible            | Compatible         |
| APS-C        | a5000                                                                               | v1.10                   | Compatible            | Compatible         |
|              | a5100                                                                               | v3.10                   | Compatible            | Compatible         |
|              | a6000                                                                               | v3.21                   | Compatible            | Compatible         |
|              | a6100                                                                               | v1.00                   | Compatible            | Compatible         |
|              | a6300                                                                               | v2.01                   | Partly compatible*    | Partly compatible* |
|              | a6400                                                                               | v2.00                   | Compatible            | Compatible         |
|              | a6500                                                                               | v1.06                   | Partly compatible*    | Partly compatible* |
|              | a6600                                                                               | v1.10                   | Compatible            | Compatible         |
|              | ZV-E10                                                                              | v2.00                   | Compatible            | Compatible         |
|              | FX30                                                                                | v4.00                   | Compatible            | Compatible         |
|              | A6700                                                                               | V1.0.3                  | Compatible            | Compatible         |
|              | ZC-E10II                                                                            | V1.0.0                  | Compatible            | Compatible         |
| *Note:       | Partly compatible means that the model has poor focusing performance with this lens |                         |                       |                    |
| *Note:       | Only the camera to adjust the aperture is supported on the A6000 and A5000 cameras. |                         |                       |                    |
