

# EASYSING MICS

Two wireless AI-powered microphones with real-time vocal removal

## Make any song a karaoke moment.

Your karaoke game is ready to go with the JBL EasySing Mics. With just a press, you can turn all of your favorite songs into instant karaoke tracks. AI Vocal Removal lets you reduce the original vocals—by 25%, 50%, or even 100%—so you can sing along at your own level, without needing special mixes or setups. Plug the USB-C dongle into your JBL PartyBox speaker\*, hit play, and make it your big moment. Plus with pitch support and natural reverb, even the whistle tones will sound iconic.

Not only it is tailored to help you sound your best, it's wireless and easy to take anywhere. And it lasts up to 10 hours, so you can keep rolling as the party becomes the afterparty. Whether you're vibing with the crew or just singing your heart out on your own, you're always at center stage.

\*Compatible with PartyBox Encore 2, PartyBox Encore Essential 2, PartyBox On-The-Go 2, PartyBox Club 120, PartyBox Stage 320, PartyBox 520, PartyBox 720, and newer PartyBox

- ▶ Seamless connection, plug in and sing
- ▶ Clean, crisp sound
- ▶ Minimize all unwanted noise
- ▶ Tuning that's got your back
- ▶ Up to 10 hours of singing time
- ▶ Recycled plastic and FSC-certified paper packaging

# EASYSING MICS

Two wireless AI-powered microphones with real-time vocal removal

## Features and Benefits

### Real-time vocal removal on any song

No special mixes, no setups needed. Just any of your favorite songs, minus the vocals. Hit play, press the button, and start singing alongside perfect instrumentals.\*

\*For non-commercial use only. It is your responsibility to know and abide by copyright laws in your country, and your use may require permission from the copyright holder(s). Review terms associated with use of prerecorded or licensed music, and streaming services, before using JBL EasySing Mics.

### Fine-tune your performance with AI vocal removal

Adjust your vocal mix your way—right from the mic or the JBL One App. With AI Vocal Removal, you can lower the original vocals by 25%, 50%, or 100% to get the balance you want. Leave a little in for background support, or remove them completely when it's your moment to shine.

### Seamless connection, plug in and sing

Forget any apps or pairing that take away from your performance time. These mics start working as soon as you plug the USB-C dongle into your JBL speaker.\* Simple, wireless, and freeing—so you can focus on your dance moves.

\*Compatible with PartyBox Encore 2, PartyBox Encore Essential 2, PartyBox On-The-Go 2, PartyBox Club 120, PartyBox Stage 320, PartyBox 520, PartyBox 720, and newer PartyBox

### Clear, crisp sound

Our voices deserve to shine. These mics deliver signature JBL sound clarity—so your vocals stay crisp and natural across any kind of karaoke backing track, from bass-heavy beats to soft acoustic ballads. However you move or sing, your performance comes through loud and clear.

### Minimize all unwanted noise

A shock mount system minimizes the sound of the mics passing from one hand to another, while a built-in pop filter eliminates any extraneous breathing sounds that you don't want to be part of your performance.

### Tuning that's got your back

This is your chance to go for the high notes. The built-in EasySing algorithm adds high-pitch support, natural reverb, and feedback suppression in real time—so you can feel confident with every note you hit.

### Up to 10 hours of singing time

A single charge will have the whole party singing for up to 10 hours. Our voices will give out before the mic does.

### Recycled plastic and FSC-certified paper packaging

The JBL EasySing Mics incorporates post-consumer recycled plastic. It's also packaged in FSC-certified paper printed with soy ink.

## Technical Specifications

### General Specifications

- ▶ Dynamic range: 98 dBA @ 1 kHz
- ▶ Signal-to-Noise: 59 dBA
- ▶ THD: < 1% @ 94 dB SPL, 100 Hz - 10 kHz
- ▶ Microphone head: 16 mm ECM
- ▶ Transmitting power: < 10 dBm

### Control and Connection Specifications

- ▶ Carrier frequency: 2404 - 2478 MHz
- ▶ Encryption: AES - 128
- ▶ Frequency / Channel selection: Adaptive channel selection
- ▶ Frequency response: 50 Hz - 15 kHz

### Dimension Specifications

- ▶ Microphone dimensions (W x H x D): 45.5 x 224.5 x 42.7 mm / 1.79" x 8.84" x 1.68"
- ▶ Microphone weight: 195 g / 0.43 lbs
- ▶ Dongle dimensions (W x H x D): 24 x 45.4 x 15.6 mm / 0.95" x 1.79" x 0.61"
- ▶ Dongle weight: 12 g / 0.026 lbs
- ▶ Package dimensions (W x H x D): 131 x 68 x 236 mm / 5.16" x 2.68" x 9.29"
- ▶ Gross weight: 665 g / 1.466 lbs

### Battery Specifications

- ▶ Microphone rechargeable battery: 240 mAh, 3.7 V Li-ion polymer battery
- ▶ Microphone battery charge time: < 3.5 hours in off mode

## What's in the Box
